① Search for and download Digital Witness from the App Store

② Set up your 3 security contacts

③ When in situations where you feel unsafe or at risk – activate Digital Witness

④ If you are threatened, point your iPhone at the person threatening you and press “Help”. When the SMS message appears – press “Send”.

⑤ Your security contacts receive an SMS with an alert message, the photo you took, and your Google map and GPS location within a few seconds.

⑥ If your security contacts feel you are in danger, they can call police and give them the exact location to respond to.
